

Mariana Ribeiro

SOFTWARE DEVELOPMENT · DATA · IT PROJECTS

Moving into technology after 7 years in business administration, finance and accounting. As a postgraduate student in Systems Analysis and Development (PUC Minas), I build websites, apps and automations with JavaScript, Python, HTML and CSS. Looking for remote roles in software development, data analysis or IT projects.

Tools

Git & GitHub · Word · PowerPoint

SOFT SKILLS

Teamwork · Decision-making · Empathy · Analytical mindset

LANGUAGES

Portuguese · native
English · intermediate

INTERESTS

Fashion · Reading · Travel

PROJECTS

Baú de Memórias

Glide · Google Sheets · baudememorias.glide.page

A published app for preserving life stories ("Memory Chest"): 50 questions about meaningful stages of life, answered by text or audio and saved in the cloud.

- Smart filter that removes answered questions from the list, using dynamic relations and conditional columns.
- Progress bar calculated with Rollup and Math; each question shown with its answer using Template Columns.
- Per-user privacy (Row Owners) and a mobile-first interface.
- Evolved from MIT App Inventor and Thunkable to the final version in Glide.

Case study at www.mariribeiro.com/bau-de-memorias.html

Página Virada

Bootstrap 5 · HTML · CSS · JavaScript

A responsive landing page for a fictional book club, versioned with Git and deployed to GitHub Pages.

- Bookshelf generated with JavaScript from data, with a genre filter and a details modal.
- Custom theme with CSS variables on top of the Bootstrap grid, responsive navbar and a validated form.
